

# ENROLL US!

We Want to Be a Member in EPA's  
National Partnership for Environmental Priorities

## GENERAL INFORMATION

Name of Organization: General Motors Corporation Name of Facility: Shreveport Operations  
Principal Contact: David Burroughs Title: Group Supervisor  
Facility Location: 7600 GM Blvd. City/State/Zip: Shreveport, LA 71129  
Mailing Address: P.O. Box 30011 City/State/Zip: Shreveport, LA 71129  
Phone: (318) 683-3267 Fax: (318) 683-9269  
Email: david.burroughs@gm.com EPA RCRA ID Number: LAD89317341

## PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Waste Minimization Priority Chemicals currently found in our hazardous and/or nonhazardous wastes using source reduction and/or recycling practices in lieu of waste treatment or land disposal practices. In this enrollment application, we identify one or more voluntary waste minimization goals that we believe we can achieve as partners in this program. The voluntary goals provided below are initial estimates and may change over time. We may revise our goals or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Acetone (2-propanone) **CASRN:** 67-64-1  
Narrative description of proposed project and the method we will use to measure success: \_\_\_\_\_

\_\_\_\_\_  
Used purge thinner of which acetone is a major component shall be recycled for reuse.

\_\_\_\_\_  
Alternative practices are to treat through a fuels blending program or disposal by incineration.

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated in hazardous waste from a baseline amount of \_\_\_\_\_ pounds generated in \_\_\_\_\_ (month/year) to a reduced amount of \_\_\_\_\_ pounds generated by \_\_\_\_\_ (month/year).
2. To accomplish this goal, we will explore the following source reduction options (check all that apply):  

<input type="checkbox"/> Equipment or technology modifications.	<input type="checkbox"/> Process or procedure modifications.
<input type="checkbox"/> Reformulation or redesign of products.	<input type="checkbox"/> Substitution of less toxic raw materials.
<input type="checkbox"/> Improvements in inventory control.	<input type="checkbox"/> Improvements in maintenance/housekeeping practices.
<input type="checkbox"/> Other (explain): _____	
3. Our (optional) voluntary recycling goal for Chemical #1 is to increase the amount of this chemical recycled from a baseline amount of 0 pounds in January, 2004 (month/year) to an increased recycled quantity of 400,000 pounds by January, 2005 (month/year).
4. To accomplish this recycling goal, we will explore (check all that apply):  

<input checked="" type="checkbox"/> Direct use/reuse in a process to make a product.
<input type="checkbox"/> Process the waste to recover or regenerate a usable product.
<input checked="" type="checkbox"/> Use/reuse as a substitute for a commercial product.
<input checked="" type="checkbox"/> Other (explain): <u>This material may be used as a paint line cleaner or a tool or parts cleaner.</u>

Authorizing Official/Title: David Burroughs/Group Supervisor

Date: May 5, 2004

Project Contact (if different from Authorizing Official): \_\_\_\_\_

Phone: \_\_\_\_\_

NOTE: use supplemental sheets for additional goals.

**SUPPLEMENTAL GOAL SHEET: WASTE MINIMIZATION VOLUNTARY PARTNERSHIP PROGRAM**

**GOAL #** 2. **Chemical Name:** Naphtha **CASRN:** 8030-30-6

Narrative description of proposed project and the method we will use to measure success: \_\_\_\_\_

\_\_\_\_\_  
Used purge thinner of which naphtha is a major component shall be recycled for reuse.

\_\_\_\_\_  
Alternative practices are to treat through a fuels blending program or disposal by incineration.

1. Our voluntary source reduction goal for Chemical #2 is to reduce the amount of this chemical generated in hazardous waste from a baseline amount of \_\_\_\_\_ pounds generated in \_\_\_\_\_ (month/year) to a reduced amount of \_\_\_\_\_ pounds generated by \_\_\_\_\_ (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):

\_\_\_\_\_ Equipment or technology modifications.

\_\_\_\_\_ Process or procedure modifications.

\_\_\_\_\_ Reformulation or redesign of products.

\_\_\_\_\_ Substitution of less toxic raw materials.

\_\_\_\_\_ Improvements in inventory control.

\_\_\_\_\_ Improvements in maintenance/housekeeping practices.

\_\_\_\_\_ Other (explain): \_\_\_\_\_

3. Our (optional) voluntary recycling goal for Chemical #2 is to increase the amount of this chemical recycled from a baseline amount of 0 pounds in January, 2004 (month/year) to an increased recycled quantity of 230,000 pounds by January, 2005 (month/year).

4. To accomplish this recycling goal, we will explore (check all that apply):

☒ Direct use/reuse in a process to make a product.

\_\_\_\_\_ Process the waste to recover or regenerate a usable product.

☒ Use/reuse as a substitute for a commercial product.

☒ Other (explain): This material may be used as a paint line cleaner or tool or parts cleaner.
